

## Patient Assistance Program Application Form

### CAN I APPLY?

At Takeda, we believe all patients should have access to the medications prescribed by their healthcare providers. We also understand that some patients may have financial situations that make it difficult to pay for their prescriptions. The ENTYVIO Patient Assistance Program (“ENTYVIO PAP”) provides assistance for people who have no insurance or who do not have enough insurance and need help getting their Takeda medications. All applications are reviewed on a case-by-case basis in accordance with program criteria. If you are currently covered for an ENTYVIO formulation, you may not be eligible for the Patient Assistance Program.

#### To be eligible, you must meet all of these conditions:

- Be a resident of the United States
- Meet income criteria
- Not have access to alternative sources of coverage or funding
- Not be enrolled in an alternate funding or similar program
- In general, not have health coverage through private or government programs
- Other terms and conditions apply (see section 10)

Applicants who are not approved for enrollment in the program may have the opportunity to seek an exception to the general program criteria. This program can be discontinued or changed at any time without notice at the discretion of Takeda Pharmaceuticals U.S.A., Inc.
